Welcome Address

Dear Delegate,

it is my pleasure to announce the 12th edition of the IPC Workshop, that will take place in Milan, from 28th to 30th March.

The Workshop will be held at Crowne Plaza Linate, near San Donato Hospital.

All participants and speakers will be accommodated into the congress venue to facilitate our networking activities. As you already know very well, the aim of the meeting is to give participants an update on the most important and innovative interventional procedures for the treatment of congenital and structural heart disease from fetus to adulthood.

Our Faculty will be represented by well-known and internationally recognized speakers, to guarantee a top level scientific program: lectures, lunch symposia, interactive sessions, satellite transmissions of live cases from well-known centers in Europe and Italy.

For this edition again, we will have a joint meeting with 3D Advanced Imaging, coordinated by Gregor Krings and Aimee Armstrong. An all-time going technical exhibition and a poster session will complete the panorama.

We will work in the usual friendly atmosphere that has always characterized the IPC Workshop: a meeting among long-lasting friends!

Looking forward to receiving you all in Milan, I send my warmest regards

Mario Carminati

GENERAL INFORMATION

SCIENTIFIC INFORMATION

All meeting rooms will be equipped with videoprojector and computer, every work will be transferred to the rooms via LAN directly from the Preview Room. To avoid incompatibility problems between speakers' computers and hall projectors and to speed up presentations, no personal connection will be allowed. Speakers are requested to kindly leave a copy of their presentation directly at the Preview Room, at least a couple of hours before their Presentation to enable technicians to set up the session sequence.

No private computer will be allowed in the hall.

For any special requirement, please, contact the Faculty Desk at the Secretariat.

Speakers are invited to be in the Room assigned for presentation at least 10 minutes before the beginning of the Session and to respect the timing assigned to each one. Chairs and Panelists shall arrive at least 15 minutes before the beginning of their session.

OFFICIAL LANGUAGE

English is the official language of the meeting.

ORAL COMMUNICATIONS

Among all abstract submitted, six works have been selected to be part of the Scientific Programme as oral presentations.

The six presenting authors have been granted a free registration to the IPC Workshop 2019 and they will participate in the evaluation of the best one, whose presenter will be offered access to the 2021 edition as part of the Faculty.

POSTER AREA

Posters will be displayed in the exhibition area.

Authors are required to be present in front of their Poster during coffee break.

* The REDUCE study determined safety and efficacy of patent foramen ovale (PFO) closure with the GORE® CARDIOFORM Septal Occluder or GORE® HELEX® Septal Occluder plus antiplatelet medical management compared to antiplatelet medical management alone in patients with a PFO and history of cryptogenic stroke. All PFO anatomies were incorporated into this study within indicated sizing parameters of the Instructions for Use.
